

// OVERVIEW

# MAINTENANCE & SERVICES

Maintenance intervals have a decisive influence on the service life of a wind turbine. Service concepts are as different as the turbines themselves: Depending on the type of turbine, the size of the wind farm and the location, we develop with you a suitable maintenance concept. And if you wish, we can also carry out smaller repairs directly.

## WHY CHOOSE WP GROUP?

*We work independently and across manufacturers. Our focus is on the customer, not the manufacturer. As pragmatists with long on- and off-shore experience, we work transparently on flexible and cost-effective solutions.*

*And we can do more: whether logistics, technical or safety-related tests – we are active in many areas and have experience!*
